SUBJECT : Requirements for Source of Referenced Report

REF : [REDACTED] 29 April 1957, SECRET/NOFORN/LIMITED BACKGROUND
25X1A2g USE ONLY/NO DISSEM ABROAD.

In order to increase further the value of the information appearing in the referenced report, it would be appreciated if the following requirements could be fulfilled:

1.) Appendix A: Were the figures for 1955 results acquired from the East German Yearbook (Statistisches Jahrbuch, der DDR, 1955) or can they be considered an indication of the accuracy and reliability of source?

2.) Appendix B: Is it possible to separate from the country totals those figures pertaining to re-exports? It is assumed that re-exports account for the difference between these totals and those appearing in Appendix A.

3.) Can source obtain breakdowns for imports similar to those for exports appearing in Appendices B and C?
